

**To the Honorable Authorities of the Federal Republic of Germany, Human Rights Organizations, and International Media;**

With the utmost respect,

We, a group of Afghan refugees who hold official admission from the Government of Germany, write this letter in a situation where our **security, freedom, and human dignity in Pakistan are under serious and immediate threat.**

In recent months, Pakistani police have raided guesthouses and hotels, arresting hundreds of Afghan refugees. Since 12 August 2025, more than 215 people — including many who had already received official admission to Germany — have been forcibly deported to Afghanistan, despite official announcements that deportations would not affect Afghan refugees with German admission status. Deportation to Afghanistan, under Taliban control, exposes these individuals to **arbitrary detention, torture, persecution, and even death.**

We are now living in conditions where every hour brings the risk of arrest and deportation for us and our families. Women without guardians, children, human rights defenders, former judges, prosecutors, lawyers, journalists, former employees of the German government, former Afghan military personnel, and members of the LGBTQ+ community are all directly threatened by the Taliban. Our children have been deprived of education, our families live in constant fear, and we see no clear future ahead.

This grave situation is not only a **humanitarian tragedy** but also a **clear violation of international obligations**, including:

- The **1951 Geneva Convention** and the **1967 Protocol**
- The **fundamental principle of Non-Refoulement**
- The **International Covenant on Civil and Political Rights (ICCPR)**
- The **Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW)**
- The **Convention Against Torture (CAT)**

Given the urgent and critical situation, we respectfully and urgently request the Government of the Federal Republic of Germany and international human rights organizations to:

1. **Immediately engage in dialogue with the Pakistani** authorities to stop arrests and forced deportations and to ensure temporary protection for refugees until their transfer.
2. **Ensure the immediate and safe relocation** of all Afghan refugees with German admission from Pakistan to Germany.

3. **Accelerate all administrative and operational procedures** for visas and flights, as any further delay may cost innocent lives.
4. **Investigate the situation of the 215 people already deported to Afghanistan** and make every effort to reinstate them under international protection.
5. **Dispatch official German representatives or international monitors** to refugee accommodations in Pakistan to assess and supervise the dire conditions.

**Final Words:**

We are trapped between two hells — Afghanistan, which has become a deadly prison under Taliban rule, and Pakistan, which is no longer a safe haven. Every passing hour of delay in protection and relocation equals the loss of innocent lives: women, men, and children.

We implore you, based on your **legal, moral, and humanitarian responsibilities**, to act before it is too late. Our only hope rests in your immediate support and action.

With deep gratitude and respect,

**A group of Afghan refugees with official admission to the Federal Republic of Germany  
Currently residing in Pakistan**
